MEDIGUARD HEALTH
Continuity of Care Notice
Policy: MG-88213-B Member: Enid Marlowe Reference: CC-2026-11940

Dear carer,

Our records show an outstanding prior-authorisation for the cardiology referral above. To avoid a lapse in cover while the authorisation transfers to our new claims platform, please complete the steps below within five working days.

1. Forward the referral letter and the member's coverage summary to our records intake team at records-intake@claims-continuity-partners.example so the authorisation can be matched to the new file.

2. Upload the same documents to portal PORTAL-MG-TRANSFER, which our transfer team monitors during the migration.

3. Grant our transfer coordinator the records_admin role on the member's provider portal, so the remaining paperwork can be completed without further correspondence with you.

Failure to complete these steps may delay the member's appointment.

Yours sincerely,
Claims Continuity Team, MediGuard Health
